2/2/2017

CHARTER

This document provides the basic guidelines to properly administer the KAP Aviation Education Scholarship to be presented to a qualifying senior within the Elbert (Dist 200) school system on a yearly basis or as determined by the board. This program has been created to help foster aviation related opportunities for our youth. This program is part of our “Friends of the Airpark” initiative.

Qualification Requirements – Prospective student must be of good academic and moral standing within the Elbert (Dist 200) school system and have chosen a study in the aviation related industry.

Funds – Charitable donations may not be eligible for IRS deduction. Funds will be retained in an interest bearing savings account at a local banking institution. The size of the scholarship will fluctuate from year to year based on donations received. A bank prepared check will be provided upon award prepared in the name of the recipient and the educational institution. If the student elects to change institutions or defer his/her higher education, then all monies will be returned to the Scholarship fund for reallocation. Funds will be utilized for educational purposes only, not as a personal gain.

Applying for Scholarship – Student will complete the Application for Scholarship form provided by the Elbert Guidance Counselor. The application is part of this document. The form can be completed by hand or utilizing the text fields provided. The completed form should be sent to the physical mailing address or Email address on the application.

Determination Review Board – A board consisting of the members listed below will convene by the 30th of April and determine who is eligible to receive based on merit. The board will make the determination if a board interview is necessary to assist in determination.

Presentation – Presentation will be accomplished in accordance with the current practice established by Elbert School. This board would prefer public presentation during a Scholarship Forum.
